In the specification, after the title on page 1, the following has been inserted:

-- This application is a National Stage Application filed under Rule 371 based upon PCT/US00/21848 filed 8/11/2000 which claims benefit of 60/148,595 filed 8/13/1999.--

The following is an examiner's statement of reasons for allowance:

The Greilich reference of record does not teach or fairly suggest first obtaining a baseline measurement of platelet function prior to obtaining a measurement after treating so one cannot determine by the method of Greilich what effect, if any, the treatment may have had. The present claims require a baseline measurement and then a measurement after treating to determine the effect of the treatment, thereby monitoring the treatment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
